Professional Summary

A dynamic leader with a strong background in engagement and relationship development within Indigenous communities, focusing on mobilization and community ownership. Known for advanced skills in emergency response, social issues and government relations, with extensive experience in non-profit leadership and operational management at the senior director level. Expertise includes project management, knowledge mobilization and facilitation, social determinants of health, and violence prevention, particularly in preventing sexual abuse and addressing the impacts of colonization.

Key Professional Experience

Sarah Burke Consulting Collective

Founder and Principal Consultant
